Some of our happy customers

With a decade of experience in the industry, We've had the privilege of collaborating with some of the UK's largest hospitality, leisure and festival brands.

EVENT SPACES REDEFINED

ENGINEERED

The Cruck Tent is engineered to British Standards (BS EN 13782) and can withstand wind speeds up to 64 mph. Each structure is rigorously inspected before installation, ensuring it is both aesthetically beautiful and durable.

ADAPTABLE

Our standard timber frame tents are available in widths ranging from 3m to 12m and are modular, expanding in 3m bays.

You can choose from options including window or plain PVC panels, as well as wooden or glass panels and doors. Additionally, we offer lighting, heating, and flooring solutions.

BEAUTIFUL

Open-Span Interior: No central poles, offering a fully unobstructed internal space ideal for creative layouts and décor.

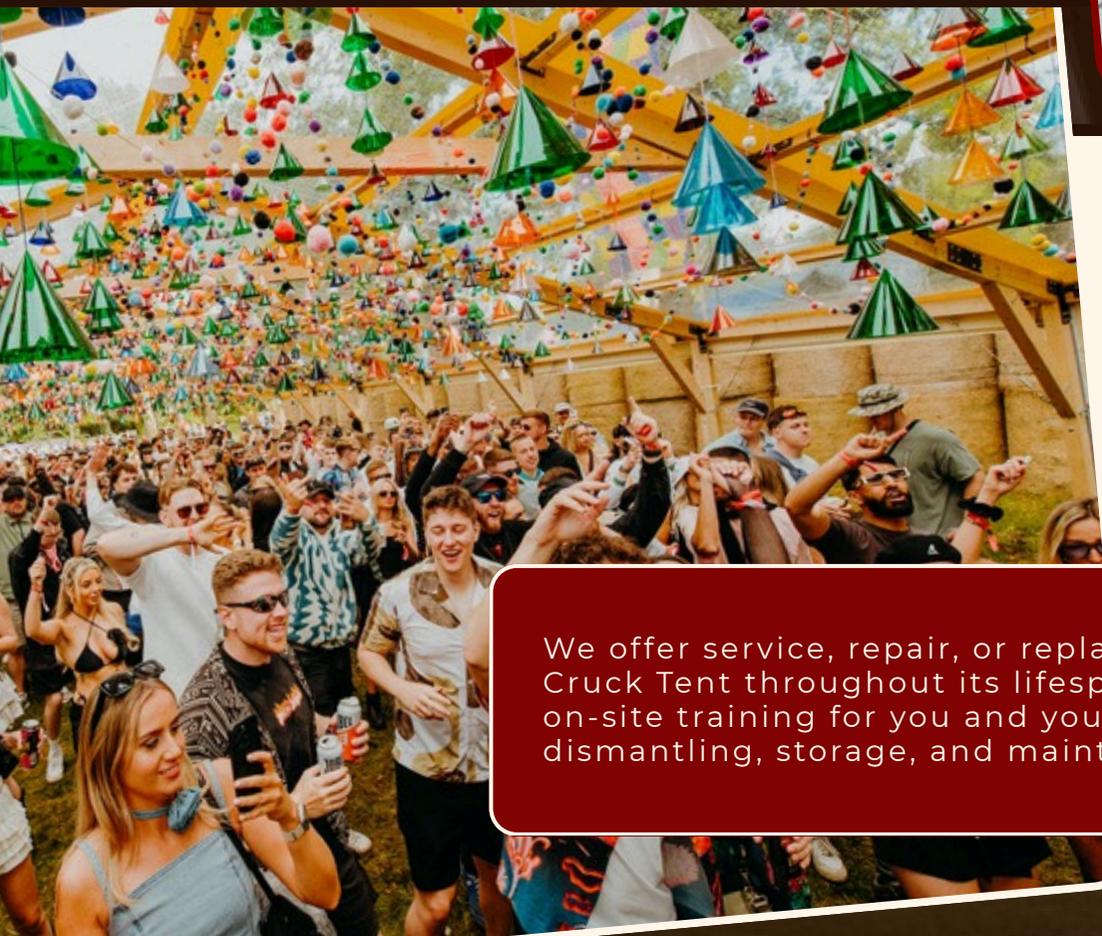

ASK US!

About our bespoke, made-to-measure options tailored for your venue or event! We can discuss your unique needs to create something special.

OPTIONS TO SUIT YOU

PURCHASE

We use the latest design technology to help bring your bespoke vision to life — whether you're looking for timber flooring, lighting, furniture or other extras, the Cruck offers a stylish, flexible alternative to a permanent building.

HIRE

For weddings, festivals, corporate events or seasonal activations, you can hire the Cruck structure—long-term rental, furniture, bar hire and lighting options available.

We offer service, repair, or replacement for any part of your Cruck Tent throughout its lifespan. Additionally, we provide on-site training for you and your team to ensure safe setup, dismantling, storage, and maintenance of your structure.

CRAFTED FOR YOU

BESPOKE CRUCK TENTS

Every event, landscape, and occasion is unique — your tent should be too. Our cruck tents are handcrafted using traditional timber framing methods, yet every detail can be tailored to match your exact vision. From size and layout to finishes and fabrics, each structure is built around your needs, not ours.

Hand-shaped timber, precision joinery, and a deep respect for tradition. But it's your story, your purpose, and your environment that shape the final creation. No two tents are ever the same.

BE CREATIVE

Our client asked us to incorporate the tree into the roof as part of this bespoke design, seamlessly blending structure and nature.

- Bespoke interior linings and lighting options
- Custom flooring — timber, matting, or natural ground
- Branding or signage options for events and weddings

FUNCTIONALITY

- Designed for permanent or temporary use
- Options for heating, ventilation.
- Modular design allows future expansion

TECHNICAL DETAILS

MATERIAL

Cruck Tents are handcrafted from FSC Douglas Fir, graded C18–C24 for strength and durability, with beams hand-finished to highlight the wood's natural character.

METALWORK

All steel components are CNC-machined, laser-cut, and corrosion-resistant, delivering precise, strong joints while preserving the Cruck's clean, traditional look.

COVERINGS

The Cruck is finished with a textured PVC fabric that mimics traditional canvas, offering full weather protection, UV stability, flame resistance, and easy maintenance.

SAFE & FLEXIBLE

Engineered for flexibility and stability, Cruck Tents can be secured with pins or ballast on any surface. Modular components allow easy assembly, dismantling, and transport without compromising safety.

CUSTOMISABLE SIZING

Our timber frame tents range from 3 to 12 metres in width and have a modular design that expands in 3-metre increments, allowing for customisation to meet specific event needs.

The table opposite provides an overview of the space you may need based on your event's capacity.

Please keep in mind that these capacities are approximate and can vary based on factors such as layout, staging, dance floors, bars, furniture, and emergency access requirements.

	6M X 12M (72M")	9 X 18M (162M")	12M X 24M (288M")
Seated Dining	60 People	90-110 People	140-160 People
Standing Reception	110-150 People	200-230 People	320-360 People
Standing Festival	190-220 People	360-400 People	550-640 People

ADDITIONAL STRUCTURES

EXPAND YOUR EVENT SPACE

We offer more than just large event structures; we can also supply supplementary setups to enhance your event. Do you require a catering tent, a green room, or an additional bar? Our aluminum high-peak pergolas and clearspan structures present a cost-effective solution for expanding your event space.

All our supplementary structures can seamlessly connect to your Cruck Barn, Cruck Clear Span, or Cruck Hall, ensuring a cohesive flow throughout your venue.
